

Tellermate

Telequip® T-Flex™ Coin Dispenser

*Because every second counts,
count on Telequip to:*

Safeguard against shrink
Reduce cashier errors
Streamline cash management
Increase profits

Popular Point of Sale Applications for Coin Dispensers:

Quick Serve Restaurants
Convenience Stores
Stadiums
Drug Stores

Supermarkets
Cafeterias
Self-Service Kiosks
Banks

Improves Customer Service. Providing efficient and professional customer service is essential to your success. Telequip's T-Flex™ Coin Dispenser is an integral part of a quality customer service solution.

Tangible Benefits. Simple to install and easy to train employees, studies have shown that installing a Coin Dispenser can save between 5 to 7 seconds off of every cash transaction. This means servicing more customers - faster! More customers equal increased profits!

Accurate change – Every Time! With a T-Flex™ Coin Dispenser, cashier errors become a thing of the past because the Coin Dispenser automatically calculates the correct change through your Point of Sale system, safeguarding against shrink. Transactions become fast, dependable, and accurate.

Streamlines Cash Management. Labor savings abound with fewer coin replenishment runs, easier shift changeover, and improved back office procedures.
